DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

* The primary reasons for allowance are the inclusion of an inkjet pen comprising an ink filter within a pen body interior chamber, the ink filter having a hollow interior encircled by a filter material, the filter material formed in pleats comprising multiple substantially parallel folds with adjacent folds alternating in direction, the filter having at least one open end and a pressure regulator within the pen body interior chamber, the pressure regulator nested within the hollow interior of the filter. It is these limitations, either alone or combined as claimed, that have been found, taught, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
